

Starting A Rain Garden Community Informational Meeting

February 23, 2019 12:00 – 1:30 pm

What is a Rain Garden??

“A rain garden is a shallow depression in the ground planted with native plants that tolerate varying water levels and weather conditions. The garden is designed to hold rainwater on site temporarily so that it infiltrates the soil rather than running off into storm drains.”

Representatives from **The Friends of the Rouge** will share the benefits of starting a rain garden which includes receiving credit on your water bill. Also, applications for rain garden grants may be shared as well.

For more information and/or to register, call St Mary of Redford
(313) 273-1100 or email devdirector@stmarysofredford.com
